

Financial Institutions

Dale & Lessmann LLP regularly serves several of the world's largest banks. Our institutional clients need timely expert advice - frequently with a cross-border perspective.

Capitalizing on the firm's location in downtown Toronto, we are able to provide know-how and representation for clients across Ontario, across Canada and around the world in connection with commercial lending matters.

This includes the planning of the initial structure of credit facilities, the preparation of appropriate documentation, the perfection of security, the conduct of due diligence and the ongoing management of credit facilities. It also includes regulatory filings, form design and drafting, staff training and document auditing.

We understand the competitive business climate in which financial institutions operate. We will be there to help you meet the challenge.

Canadian Counsel

Because of the international nature of our practice, Dale & Lessmann LLP frequently serves as local counsel on international transactions, providing up-to-date information and practical advice on Canadian law, serving as primary counsel and providing formal legal opinions.
